Hi Peter,

Just to let you know that my wife and i enjoyed the trip this past Summer.

On our first day the air conditioning broke down and it started to rain till late in the evening. Things happen . People can't just start complaining over something that you have no control over. This was a super trip. We saw everything that was promised and more. We mingled with the other passengers and had a good time. Our driver, Dominic, is an excellent bus driver and we felt very comfortable with his driving skills. Peter, our Tour Director, handled all the hotel accomodations and tours very professionally. He is a very personable man and i enjoyed his comments and effort to make sure everyone was taken care of throughout the trip . At times Peter could be a little rough around the edges but, thats his way. Deep down he is a real softie and will go that extra mile to please the passengers. Dominic and Peter are good guys and did a fine job.

Keep in mind that this trip with him was much cheaper than with some other tour companies . Bottom line.

WE would go on another trip with his Company.

I believe you get what you pay for and Peter will certainly give you a big bang for your buck. What's not to like.

Quint & Ghislaine
